

## **MRT Introduces 1999-2004 Cobra Catback Exhaust System**

### **For Immediate Release**

**Plymouth Michigan-** MRT is proud to introduce their [1999-2004 Cobra catback exhaust](#). The 1999-2004 is a true performance car and the new MRT catback exhaust system will give the Cobra an exhaust note that is worthy of this special automobile. The new Cobra exhaust system was designed, engineered and manufactured at the state of the art MRT facility in Plymouth, Michigan.

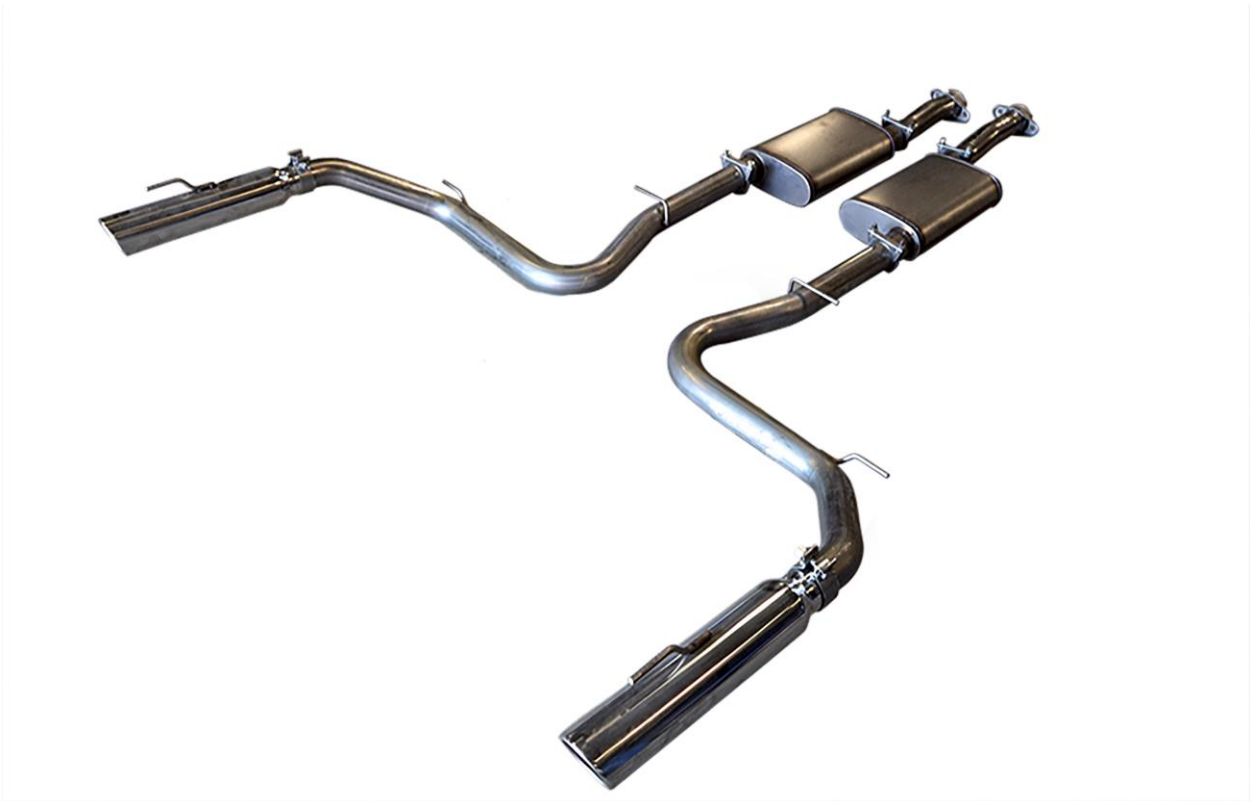

The Cobra catback exhaust system is manufactured with the highest quality 304 stainless steel and is mandrel bent to provide smooth unobstructed exhaust flow.

The highly efficient MRT High-Flow mufflers provide a significant horsepower gain, with improved fuel economy providing the best of both worlds.

Like all MRT manufactured exhaust systems, the 1999-2004 Cobra catback system is covered by the MRT industry leading Limited Lifetime Warranty.
